

At this level, we only need to use the `cat` command. This command allows us to output contents of a file in the command-line.

The page states that the password for the next level is in a file called "readme."

```
[bandit0@bandit:~$ cat readme  
boJ9jbbUNNfktd7800psq0ltutMc3MY1
```

We now copy this password and ssh into the next level.
